

POLISH AGRICULTURAL MARKET AGENCY

AAR

The Agricultural Market Agency (ARR) is a Polish government agency under the supervision of the Minister of Agriculture and Rural Development. Since Poland joined the EU, the AAR assumed the function of an EU paying agency under EU law. In 2012, the ARR became an executive agency under national law, meaning its tasks include implementing certain aspects of the Common Agricultural Policy (CAP) such as: food promotion, monitoring of the biocomponents and liquid biofuels market, as well as the gathering and administering of data concerning agro-food markets.

NATIONAL POULTRY COUNCIL

(KRD-IG)

WWW.KRD-IG.COM.PL

Krajowa Rada Drobiarstwa- Izba Gospodarcza (The National Poultry Council - Chamber of Commerce) has been established in Warsaw on the 11th of March 1998.

The aim of the National Poultry Council - Chamber of Commerce (KRD-IG) is, *inter alia*, further development and modernisation of Polish poultry industry, protection of interests of poultry farmers, producers and processors, their integration and the representation of the Polish poultry industry with the authorities, local governments, as well as Polish and international organizations. We also deliver opinions which are considered during work on legal acts pertaining to poultry industry, we co-operate with scientific institutions and universities, and we edit and publish our monthly gazettes Biuletyn Informacyjny KRD-IG and annual Biuletyn Surowcowy KRD-IG.

We collect and process gathered economic information to satisfy the needs of our members, prepare analyses and reviews of the Polish and international poultry markets. We intercede with the authorities with regard to poultry export and import. We co-act with state agencies, that is Agricultural Market Agency and Agency for Restructuring and Modernization of Agriculture. We also co-operate with veterinary and sanitary service, take part in exhibitions and fairs throughout Poland and abroad, as well as promote achievements of KRD-IG members in poultry industry. We organize training conferences dedicated to problems closely related to the poultry industry, the economy of the poultry market, sanitary and veterinary regulations, as well as environmental protection in poultry production.

Over 60 business entities representing such fields as farming, breeding, hatching, poultry and egg production, poultry meat and egg processing, trade in poultry, poultry meat products and poultry feed production are currently members of KRD-IG. Members include agricultural universities, associations of poultry farmers and producers, poultry meat processing plants, feed production plants and individual poultry farmers and producers.

KRD-IG members produce approximately 70% of the total slaughter poultry production volume, and some 80% of the total domestic production of poultry for commercial slaughter and meat processing.

From 2005 KRD-IG is a member of a. v. e. c. - the European Producers' Association, Importers and Exporters of the Chicken Meat in Copenhagen.

ARR COMPANIES

APPOLONIA

APPOLONIA- The Appolonia Consortium currently reaches sales of over 200 000 tonnes of apples. Our daily fruit production capabilities are in excess of 50 truck shipments. We specialise in services for customers requiring large amounts of quality fruit.

BAKOMA

BAKOMA was established in 1989 and is now the largest Polish dairy producer. We produce yoghurts, drinkable yoghurt products, homogenized cheeses, milk deserts for kids and adults as well as fruit mousses. Bakoma products are guaranteed to be produced from high quality milk and the best fruit. We continuously upgrade our production lines, seek out the best technologies and introduce innovative natural products.

„EWA-BIS”

“EWA-BIS”- the firm concentrates its activities on the export of fresh and frozen fruits and vegetables, including the most important Polish export product – the apple. Our firm also offers NFC juices, concentrates as well as FMCG products. We sell our products to EU member states, Africa, Asia and North America. We cooperate with retailer and distribution chains as well as with processors and wholesalers. We provide stable delivery services, competitive process and the highest-quality products straight from the producers.
